Position: **Research Associate**

Responsibilities: The scientist will be in charge of managing a cell culture laboratory, training undergraduate students in cell culture techniques, and participating in other cancer research activities at Wood Hudson Cancer Research Laboratory.

Salary commensurate with experience

Education Requirements: Master of Science degree in Cancer Biology or a closely related field

Applicants with diligent work habits, excellent communication skills, and “good hands” in the laboratory are invited to email a resume/CV and two letters of recommendation to Dr. Julia Carter at jcarter@woodhudson.org.

Our facilities include laboratories for cell culture, genetics, molecular biology, biochemistry, histology and microscopy. Over 2.2 million human surgical specimens are included in the Wood Hudson Biospecimen Repository including specimens from over 60,000 cancer patients. Solid tumors from nearly all cancer sites are available for study. The organization is open to new ideas and new techniques.

Please see our peer reviewed scientific publications at <http://woodhudson.org/publications> for current research interests.
